FORMAL CUSTOMER DEFECT COMPLAINT NOTIFICATION

Field	Details
Complaint Source:	Hospital Clinical Pharmacy Ward
Customer Name:	St. Jude Memorial Hospital
Product Name:	Paracetamol Tablets
Product Strength / Grade:	500 mg
Batch / Lot Number:	B24019
Manufacturing Date:	2024-01-15
Expiry Date:	2026-01-14
Quantity Affected:	120 bottles (100 tablets/bottle)
Complaint Nature / Type:	Physical Defect / Discoloration & Foreign Specks
Complaint Date:	2024-05-10
Severity Assessment:	Major - Critical Quality Attribute Deviation

DETAILED DESCRIPTION OF COMPLAINT:

During routine morning dispensing in the Intensive Care and Inpatient Wards on May 10, 2024, ward pharmacy nurses observed abnormal brownish discoloration and small black specks embedded on the surface of Paracetamol 500mg tablets from sealed HDPE bottle batch B24019. Further visual inspection of 5 unopened bottles from carton #4 confirmed 8 to 12 affected tablets per bottle exhibiting chipping and surface mottling. Dispensing of batch B24019 has been immediately suspended across all hospital wards. All 120 remaining bottles have been quarantined. We request immediate root cause investigation and replacement shipment under cold-chain assurance.

Signed: Dr. Eleanor Vance, PharmD - Chief of Clinical Inpatient Pharmacy
